Join us today.
Your gifts to ELCA World Hunger help our church creatively and courageously work toward a just world where all are fed. Thank you for making this work possible through learning, action, prayer and giving.

More than 90 cents of each dollar donated directly supports program work... 

with less than 10 cents going to administration and fundraising.

HOW TO GIVE

MAIL
Make checks payable to “ELCA World Hunger” and mail to:
ELCA World Hunger
P.O. Box 1809
Merrifield, VA 22116-8009

ONLINE
ELCA.org/hunger/donate

SUNDAY OFFERING
Give through your congregation’s Sunday offering. Make your checks payable to your congregation and write “ELCA World Hunger” on the memo line.

For other ways to give please call 773-380-2616 or email hunger@elca.org.

UNTIL ALL ARE FED
The world provides enough food for all, but more than 800 million people around the world face chronic hunger. We believe in a God of abundance, so as a church, we live out our call in baptism to strive for a just world where all are fed.

ELCA World Hunger is this church at work. We walk alongside our partners and companions in the United States and more than 60 other countries. Generating unique solutions to local challenges starts by listening to our neighbors and communities. Then, together, we work and serve to help break the cycle of hunger and poverty – for good.

Maria is a mother to five children, all under the age of 18. She and her family have spent decades tending to their family farm in Malawi, where they grew maize. If there was a drought, the harvest would yield less than expected. That would mean there were weeks – even months – without a reliable source of food. So when Maria was offered the opportunity to attend a Farmer Field School, through an agricultural training program offered by the Evangelical Lutheran Development Service in Malawi and supported by your gifts to ELCA World Hunger, she was eager to accept.

Maria joined 40 other farmers in her community to learn about crop diversification and planting techniques. She was given new seeds and tools to get started. Maria’s strategy was to plant new, more resilient crops that she could also sell at the market to provide a wider safety net if maize failed. She planted soybeans and sweet potatoes. She’s eager to show off her land, which now expands down the hill and far into the valley below.

With more variety on her farm, she’s much more equipped to handle the in-between times when the maize harvest is minimal. Better yet, she’s witnessed a change in her children’s health and energy with a greater variety of nutrients in their diet. Now they’re focusing better in school and able to help out on the family’s farm.

“We used to be hungry, but [now] that is not the case,” Maria says. “Now I see a good future for our children.”
