Energy-saving cook stove

Help a cook shave hours off her to-do list. Finding fuel for cooking is no easy task. Women endure long walks to gather firewood, walks that are time consuming and dangerous. And what’s more, the destruction of trees leads to deforestation and burning wood in the home exposes a family to deadly fumes. Energy-saving cook stoves get the job done with half as much wood, providing dozens of time-saving, environmental and health benefits to women and their families.

This gift supports sustainable development projects of ELCA World Hunger.

Give gifts that grow the church, fight hunger and transform lives.
