Guide To Proportionate Giving

*For they voluntarily gave according to their means, and even beyond their means.
2 Corinthians 8:3*

Instructions :

Find your annual or weekly income in one of the first two columns. Then look across the row to determine your giving level in percent. We encourage each household to increase giving 1 percent per year.

Example :

For a household earning \$52,000 per year and contributing about \$30 per week, the contribution is about 3 percent of income. This is a portion of what has been given by God to be managed and then is returned to do ministry. A 1 percent increase (from 3 percent to 4 percent) would be about an additional \$10 per week.
