

MEDICARE AND HEALTH CARE

Social Policy Resolution

CC04.04.23d

Evangelical Lutheran Church in America

God's work. Our hands.

Adopted by the 2004 Church Council.

Resolved

To receive the response of the Division for Church in Society to the resolution of the Southeastern Iowa Synod related to "Medicare and Health Care"; and

To acknowledge that the issues related to Medicare are both complex and urgent, but to support the recommendation of the division that it continue its ongoing public policy advocacy related to Medicare within the broader policy context of the social statement "Caring for Health: Our Shared Endeavor" and in consultation with social ministry organizations that provide health care to Medicare-eligible people.
