* Mission Support is a portion** of your congregation's offerings that are shared for synodical and churchwide mission and ministries beyond your congregation. It is the lifeblood of the work that God does through the Evangelical Lutheran Church in America—across this country and around the world. It enables the ELCA to do God's work in ways that no individual or individual congregation could do alone. The Mission Support of all ELCA congregations provides about 80 percent of the resources that are used to fund the mission and ministry that we do in partnership.

** (Congregations under development and SAWCS are expected to share 10% -15% of their offerings for Mission Support.)
