Peace Not Walls Challenge - Pilot Program details

OUTCOMES

The program encourages seminarian involvement in the PNW initiative as part of their ongoing vision for ministry in the ELCA. Student projects will be implemented/tested in a local ministry context by the seminarian and may be posted on the PNW page of the ELCA as resources for congregations and distributed through the PNW network.

SCOPE

Developed projects are intended to be practical in nature, which can be implemented within congregations, synod events, or faith-based organizations. Projects should align with the foci of PNW: accompaniment, advocacy, and awareness raising. For example, it might take the form of a bible study, devotions for Advent or Lent, podcasts, interactive youth events, etc.

SUPERVISION

Supervision for the projects will be provided by the Rev. Dr. David D. Grafton (ELCA rostered leader, under call with Hartford Seminary).

FINANCIAL SUPPORT

- A cash honorarium will be given to assist with the implementation of the project in the local ministry setting.
- The selected finalist(s) of the pilot program will be provided travel expenses to present their project at the May 20-22 2019 PNW Annual Gathering.
