

LUTHERAN DISASTER RESPONSE
U.S. FLOODING

JULY 2022

ELCA.org/disaster

Beginning on July 27, a line of severe storms dumped record amounts of rain on eastern Kentucky, overflowing rivers and creeks onto streets and neighborhoods. Rising waters are damaging infrastructure, including roads, bridges and power lines, which hinders rescue efforts. The flooding has destroyed hundreds of homes and other buildings and disrupted the lives of families.

We anticipate that the response will include rebuilding homes, replacing lost household items and providing emotional and spiritual care to survivors. This is in addition to our ongoing response to the December 2021 tornadoes in western Kentucky.

Your gifts will support flood survivors. Gifts to “U.S. Flooding” will be used in full (100%) to assist those affected by flooding now and during the long recovery. Together, we can provide immediate and long-lasting support. Give today to support this response and others like it.

As the waters recede and the full scope of the damage is assessed, Lutheran Disaster Response will work with the Indiana-Kentucky Synod and local communities to focus on long-term needs.
