May 2022

Alleluia! Christ is risen.  
Christ is risen indeed. Alleluia!

Greetings in these 50 days of rejoicing.

I am rejoicing this season that I have the opportunity to visit with four synod assemblies during Easter. It is a blessing to connect with and learn from many people during these visits about how worship is going in your context. Many synod assemblies are utilizing [All Creation Sings](#) in exciting ways. Some synods have based the assembly theme around a song in ACS.

Although our staff cannot be present in every synod, know that there are resources to help share and teach about *All Creation Sings* in a variety of contexts. The [ACS website](#) is full of materials for sharing about this resource in your congregation and synod.

Whether you are beginning to explore new resources or becoming reacquainted with things that are known well in your context, the worship staff would love to hear about how worship is going in your context. Don't hesitate to reach out to us at [worship@elca.org](mailto:worship@elca.org). We always appreciate hearing how things are going in worship in your context and learning what resources might be helpful in the future.

In peace,  
Deacon John Weit  
Executive, Worship
